

What have we been learning?

WB: 03.03.25

This week, we've kicked off our exciting new topic of "Growing," where the children will explore the natural processes of life, including the growth of plants and animals. The focus is on nurturing their curiosity, encouraging them to observe, question, and experiment as they recognize changes over time. In our garden centre, we've been busy exploring different seeds, learning about plants, vegetables, and fruits.

Meanwhile, in maths, the children have been focusing on matching and composing numbers 6, 7, and 8, using dominoes to count and match the total spots with the correct numeral.

A Gentle Reminder!

Spring Has Sprung

As the season changes, we kindly remind you to label your children's jumpers and cardigans. This week, we've noticed quite a few of them going missing, and a little label can help ensure they make it back to their owners.

Thank you for your attention!

Nursery rhyme of the week

Nursery: Zoom, Zoom, Zoom

Thank You for Embracing Word Aware Day!

A big thank you to everyone for embracing the magic of Word Aware Day! Our focus was on developing the children's vocabulary by introducing them to new and exciting words, and you truly helped bring those words to life. It was wonderful to see the enthusiasm and creativity as the children explored and used their new vocabulary. Below, you'll find some fantastic examples of their learning in action!
