

What have we been learning?

WB: 28.04.25

This week, we've been diving into the fascinating world of minibeasts and their habitats! The children loved exploring our school garden, searching for tiny creatures and learning all about where they live. We focused on snails in particular—identifying their shell, foot, head, and tentacles. In maths, we've been practicing number formation in the sand, combining learning with sensory fun. Why not keep it going over the bank holiday? Bring your number practice into school next week and earn **2 smiles!** We've also been working on our physical development skills, with a focus on aiming, throwing, and catching. It's been a busy and exciting week of learning and movement!

Stay and play sessions 08:45-09:45am

Please do not forget to stay, play and learn on **Tuesday 6th May 2025**. We will be exploring nursery rhymes through small world play, phonics activities and making our own nursery rhyme bags!

Nursery rhyme of the week

Nursery:
