

What have we been learning?

WB: 07.07.25

This week in Reception, we've been exploring subtraction by finding out "how many are left." The children enjoyed a hands-on activity using LEGO towers—building them up and then taking a number away to see what remained. It's a simple and fun task you can easily try at home!

In our Understanding the World sessions, we've been learning about how maps help us understand the world around us. We began with the story *Rosie's Walk*, which introduced the idea of routes and locations. Now, we're starting to think about our own local area and how places relate to one another.

This term, it's **EYFS's turn to support our local food bank**. You'll find the **wicker basket just outside the classroom door**—feel free to drop off your donations there at drop-off or pick-up times.

No toys should be brought to school from home, as they often become lost or broken.

Please bring a carrier bag on Friday 11th July so we can start to send home books.
